

PORTABLE pH METERS

Pocket pH meters with large display make taking readings easy:

- Microprocessor-based, accurate readings to 0.1 pH
- Replaceable electrode lets you use body many times over
- Unique double-junction design and extra reference gel volume for long electrode life
- Automatic temperature compensation
- Push-button three-point calibration
- Auto buffer recognition; selectable buffer sets
- Hold function; auto-off; error messages
- Waterproof, dustproof, and floatable; certifiable to IP-67 standards
- Dimensions 6 ½ H x 1 ½ dia. (16.5 cm x 3.8 cm)
- Shipping weight (meter only): 4.5 oz. (125g).
- Buffer shelf life: 1 year
- Warranty: 1 year

Prices:

PART NUMBER	DESCRIPTION	PRICE
400130	PH Testr 10 Meter Only: package includes meter, electrode, four 1.5V batteries, instructions.	\$162.00
400131	PH Testr 10 Meter Kit: package includes meter; electrode; two each of pH 4.01, 7.00, 10.00 buffers and rinse solution in single use pouches; sample jar, batteries, instructions; hard-plastic carrying case.	\$199.00
400132	Replacement Electrode.	\$110.00

Specifications:

MODEL	PH TESTR 10
<i>pH Mode</i>	
Range	-1.0 to +15.0
Resolution	0.1pH
Relative Accuracy	+/-0.1 pH
Calibration	Up to 3 points; select buffer sets (U.S.: 4.01, 7.00, 10.00; or NIST* 4.01, 6.86, 9.18
<i>Temperature Mode</i>	
Range	---
Resolution	---
Relative Accuracy	---
Compensation (ATC)	0.0° to 50.0° (32° to 122°F)
Electrical Requirements	Four 1.5V batteries (included)
Battery Life	Over 500 hours
